

# Voicing Your Opinion

## Providing Feedback on Ontario's Electricity System

There are a number of ways for consumers to voice their opinions on provincial, regional and local electricity issues.

## Electricity System Planning in Ontario

There are various electricity system planning initiatives ongoing across Ontario at any given time:

- **Province-wide** customer consultations are generally managed by the provincial government.
- **Regional** customer consultations in Ontario are generally managed by the IESO.
- **Local** customer consultations related to distribution systems are managed by local distributors.

## OPG Business Planning

This consultation is about your needs, preferences and priorities on how OPG should invest customers' money.
